Opening Speech of the Mayor of Meram Municipality

Welcome to the opening of the International Symposium for Environmental Science and Engineering Research 2023, which I believe will make significant contributions to the future of our environment and our world. To begin with, I would like to share with you, esteemed participants, the satisfaction I feel from holding such a valuable symposium regarding the environment, which is one of the most important problems in the world, in our Konya and Meram.

Dear Guests,

The world is becoming more uninhabitable with each passing day due to the mistakes made by human beings. Today, in our world, which is the common living space of all living things, human beings are supposed to maintain the balance of the earth, but unfortunately, they are positioned against nature with a lifestyle that is exactly the opposite. As we all know, natural resources such as clean air, clean water, fertile soil, and biodiversity is vital for building a sustainable future. However, today, the pressure on our environment is increasing, and our natural resources are rapidly depleting. Today we face climate change, sea acidification, forest fires, and other environmental threats. We need fair sharing and scientific wisdom to overcome these problems and re-establish a sustainable world. That's why the International Symposium for Environmental Science and Engineering Research provides a platform to find and share these solutions. This symposium provides an opportunity for scientists, engineers, academics, and experts from around the world to come together. Here we will discuss the latest developments and innovations in the field of environmental science and engineering, share our experiences, and explore cooperation possibilities. The main aim of this symposium is to shape a sustainable future by bringing together science and engineering to protect and improve our environment. We believe in the power of scientific approaches to find solutions to today's problems, and we organize this symposium with this belief.

Dear Guests,

As Turkey, we attach great importance to every work done on climate change and zero waste. The Zero Waste Movement, which was launched five years ago under the leadership of the esteemed First Lady Emine Erdoğan, achieved great success in a short time and showed the whole world the importance of human individual efforts in environmental problems. The Zero Waste Movement, established under the leadership of First Lady Erdoğan as an indicator of our sincere approach to this issue as a country, turned into an environmental movement with the support of 105 countries at the 77th General Assembly of the United Nations. Zero Waste Day, declared at the United Nations General Assembly, was celebrated for the first time on March 30. We, as the Republic of Turkey, our government, and local administrators, are taking sincere steps towards a more livable environment, and we will continue to do so. We believe that more equitable sharing is needed for a more livable environment. While we say, "World population is increasing; resources are not enough for humanity", we cannot throw away one-third of the food produced. We cannot talk about fair sharing when the number of children dying of hunger is the same as the number of children dying of obesity. Our world, which has hosted humanity for centuries, is waiting to be saved from humanity again today. The world will be saved by people who are concerned about this issue and can work individually and collectively on it. The world will be saved by people who think about a more equitable distribution and strive for it with science and common sense. Then our tomorrow will be more livable than our present.

Dear participants,

During the symposium, we will have the opportunity to learn about the latest developments in the field of environmental science and engineering, share our experiences, and establish new collaborations. This event is an expression of our commitment to leaving a cleaner, greener, and more sustainable world for future generations.

Ultimately, successfully completing this symposium will help us gain a better understanding of and more effective solutions to environmental problems around the world. Together, we can fulfill our responsibility to protect our environment and leave a livable world for future generations.

As I conclude my words, I would like to thank all the institutions and organizations that contributed to the realization of the symposium, and I hope that you, the valuable participants who gathered to save the world, will have an enjoyable and productive symposium period.

The Mayor of Meram Municipality
Mustafa KAVUŞ

CONTENTS

O 1. ANKARA CITY MAMAK DISTRICT CENTRE SOLID WASTE POTENTIAL	1
O 2. FOREST FIRES AND ITS EFFECT ON AIR POLLUTION IN SUMMER	10
O 3. EVALUATION OF SPATIAL SUSTAINABILITY ON THE IMPORTANCE OF WALKABILITY IN CHOOSING THE LOCATION OF HOTELS IN THE CITY OF KONYA .	19
O 4. OBSTACLES TO AQUATIC ECOLOGY AND WATER CORRIDORS AS PART OF CLIMATE-ADAPTIVE SOLUTION TO A COMPLEX PROBLEM	20
O 5. THE SPATIOTEMPORAL IMPLICATIONS OF URBANIZATION FOR URBAN HEAT ISLANDS (UHI) IN TIRANA UNDER THREATENING EXTREME SUMMER TEMPERATURES	21
O 6. GEOLOGY AND HYDROCHEMICAL CHARACTERISTICS OF THE AKHÜYÜK SPRING (EREĞLİ-KONYA) AND ITS HOT MINERAL WATERS	22
O 7. THE EVALUATION OF THE SNOW CLIMATE INDICATOR IN SOME AREAS OF ILLINOIS, USA.....	23
O 8. THE EVALUATION OF RECREATIONAL AREAS IN TERMS OF ECOLOGICAL- CULTURAL TOURISM	27
O 9. AQUASCAPING AND WATERSCAPES AS AN UNDERWATER LANDSCAPE ART.....	37
O 10. ESKAPE PATHOGENS IN ECOSYSTEMS: QUANTITATIVE MICROBIAL RISK ASSESSMENT	46
O 11. GEOSMIN AND 2-METHYLISOBORNEOL REMOVAL FROM AKSARAY’S TAP WATER BY POWDERED ACTIVATED CARBON	47
O 12. OVERVIEW OF THE NEGATIVE EFFECTS OF CLIMATE CHANGE.....	48
O 13. CONSTRUCTION WASTE MANAGEMENT: KEY STUDY OF SKOPJE.....	55
O 14. INVESTIGATION OF THE CHANGE IN THE USE RATES OF NON-RENEWABLE ENERGY RESOURCES, WHICH HAVE A MAJOR ROLE IN AIR POLLUTION IN KONYA PROVINCE, BY YEAR	61
O 15. IMPORTANCE OF TRICLOSAN FOR ENVIRONMENT AND HUMAN HEALTH.....	69
O 16. MICROBIAL CENOSIS DEVELOPMENT IN THE SOIL OF CULTIVATED CROPS.....	77
O 17. DICHOTOMY ISSUES IN ENVIRONMENTAL ETHICS – A CRITICAL ANALYSIS OF ECO-ANTHROPOHOLISM	78
O 18. CURRENT KNOWLEDGE ON ANTIOXIDANT ACTIVITY AND INHIBITORY PARTICULARITIES OF CISTUS INCANUS (L.) COLLECTED IN CENTRAL ALBANIA	79
O 19. CURRENT KNOWLEDGE OF CONSERVATION STATUS OF FISHES OF VJOSA RIVER (ALBANIA).....	80
O 20. EVALUATION OF THE PHYTOCOENOSES CONDITION OF AGROLANDSCAPES OF THE RIGHT-BANK FOREST-STEPPE OF UKRAINE BY ANTHROPOGENIC FACTORS....	81
O 21. SOLAR POWER ELECTRICITY IN PUBLIC BUILDINGS ECO-FRIENDLY ENERGY SOLUTION– CASE STUDY THE ALBANIAN FOOTBALL ASSOCIATION BUILDING	82
O 22. IMPACT OF SOLID WASTE MANAGEMENT SYSTEM DURING THE COVID-19 PANDEMIC PERIOD	90
O 23. A NEW PARADIGM FOR AREA-BASED CONSERVATION; OTHER EFFECTIVE AREA- BASED CONSERVATION MEASURE; CASE OF KARACADAG	95
O 24. ARMED CONFLICT AND ITS IMPACT ON THE ENVIRONMENT: PRINCIPLES OF JUS AD BELLUM AND JUS IN BELLO	96

Proceeding Book of ISESER2023

O 25. AN ECOCRITICAL EXAMINATION OF ENVIRONMENTAL ETHICS AND CONSERVATION IN THE WORKS OF JOHN STEINBECK.....	97
O 26. AIR POLLUTION AND PUBLIC HEALTH IMPACTS DURING THE COVID-19 PANDEMIC.....	98
O 27. ESTIMATING OF EMISSIONS FROM CARGO AIRPLANES: A COMPARATIVE ANALYSIS AT TURKISH AIRPORTS.....	105
O 28. GRAPHICAL USER INTERFACE DESIGN FOR REMOVAL OF OUTLIERS DATA: YESILIRMAK RIVER EXAMPLE.....	106
O 29. ACRYLAMIDE/SODIUM ACRYLATE/POLYETHYLENE GLYCOL/KAOLIN COMPOSITE HYDROGELS FOR REMOVAL OF METHYLENE BLUE: DYE ADSORPTION ISOTHERMS AND KINETICS	107
O 30. COMPARISON OF METHODOLOGIES TO CALCULATION CARBON FOOTPRINT IN LIVESTOCK FARMS.....	108
O 31. INVESTIGATION OF MECHANIZATION LEVELS AND ENERGY EFFICIENCY OF DAIRY CATTLE FARMS IN EREĞLI DISTRICT OF KONYA PROVINCE.....	118
O 32. SUBSIDIZING AGRICULTURAL PRODUCTS TO PREVENT THEIR REPLACEMENT IN THE CASE OF CANNABIS LEGALIZATION – THE CASE OF ALBANIA.....	119
O 33. STRUCTURAL ANALYSE of GREENHOUSE SHEEP BARN for SHEEP BREEDING in KONYA#	126
O 34. URBAN WASTEWATER TREATMENT PLANT EFFICIENCY MODELING WITH ARTIFICIAL NEURAL NETWORK: KONYA EXAMPLE.....	136
O 35. INVESTIGATION OF PARAMETERS AFFECTING THE ADSORPTION PROPERTY OF PHOTOCATALYST IN THE REMOVAL OF ENDOSULFAN USING PHOTOCATALYSIS PROCESS	143
O 36. THE IMPORTANCE OF CONSERVATION AND THE RESTORATION OF HISTORICAL GARDENS AS SUSTAINABLE CULTURAL HERITAGE.....	152
O 37. PLANT SELECTIONS FOR EDIBLE GARDENS AND URBAN AGRICULTURE IN XERISCAPE LANDSCAPING.....	162
O 38. INVASIVE PLANT SPECIES IN THE URBAN ECOSYSTEM: BOSTANLI STREAM EXAMPLE; KARSIYAKA, IZMIR.....	171
O 39. EFFECT OF SALINE SOILS AND WATER QUALITY ON SOME COTTON TRAITS UNDER DIFFERENT LOCATIONS.....	179
O 40. EFFECT OF FERTILIZER LEVELS AND SOWING METHODS ON EARLINESS AND GRAIN YIELD OF SOME BREAD WHEAT.....	187
O 41. SOWING METHODS INFLUENCE ON GRAIN YIELD AND ITS COMPONENTS OF SOME WHEAT CULTIVARS UNDER DIFFERENT FERTILIZER LEVES.....	188
O 42. THE ROLE OF SOME ANTIOXIDANTS FOLIAR APPLICATION ON BIO-CHEMICAL AND YIELD OF TWO WHEAT CULTIVARS GROWN UNDER SALINITY STRESS	196
O 43. PROTECTIVE EFFICACY OF AN INACTIVATED VACCINE AGAINST RABBIT HEMORRHAGIC DISEASE VIRUS 2 PREPARED FROM A LOCAL ISOLATE IN EGYPT.	214
O 44. APPLICATION OF MULTI-CRITERIA DECISION-MAKING METHODS IN SUSTAINABLE WATER RESOURCES MANAGEMENT: KONYA CASE	215
O 45. LEACHATE BASED GLUE SYNTHESIS APPROACH.....	220
O 46. PERSONNEL TRAINING IN IMPROVING THE PIPE PRODUCTION PROCESS	221
O 47. MICROGREEN FOOD CHOICE IN SUSTAINABILITY	222

Proceeding Book of ISESER2023

O 48. INTER-RELIGIOUS ADVOCACY IN THE PROMOTION OF ENVIRONMENTAL SCIENCE.....	225
O 49. MODERN URBAN DEVELOPMENT IN CALABAR: REDUCING HOUSING DEVELOPMENT'S ECOLOGICAL FOOTPRINT.....	226
O 50. IMPACT OF OUTSIDE FARES CUISINE ON TOURISM GROWTH IN CALABAR, NIGERIA	227
O 51. AGRICULTURAL FUNCTIONS FOR THE REQUIREMENTS FOR THE DEVELOPMENT OF AGRICULTURAL COOPERATIVES IN THE AL GHARBIA GOVERNORATE.....	228
O 52. THE CULTURAL, MORAL, AND RELIGIOUS DIMENSIONS OF ENVIRONMENTAL PROTECTION.....	229
O 53. BEHAVIOR OF SILLE STONE AGAINST ACID RAIN.....	230
O 54. THE EFFECT OF LAYOUT OF ENERGY DISSIPATORS ON ENERGY DISSIPATE.....	234
O 55. EFFECTS ON EARLY DEVELOPMENT OF HEAT STRESS IN WHEAT (TRITICUM DURUM)	242
O 56. MORPHOLOGICAL DIVERSITY OF SALICORNIA EUROPEAE POPULATIONS	243
O 57. MICROBIC QUALITY (CF/SF) AND SOME PHYSICO-CHEMICAL PARAMETERS IN SURFACE WATERS IN THE REGION OF SHKODRA, ALBANIA.....	244
P 1. A STUDY OF DIATOM DISTRIBUTION AND BIODEIVERSITY IN FRESH WATER OF VJOSA RIVER	248
P 2. ASSESSMENT OF ECOLOGICAL STATUS OF VJOSA RIVER IN ALBANIAN, BASED ON CHEMICAL INDICATORS AND BIOMONITORING	254
P 3. DETERMINATION OF PHYTOCHEMICAL COMPONENTS OF ACHILLEA MILLEFOLIUM IN DIFFERENT AREAS OF ALBANIA	259
P 4. BTEX MEASUREMENT RESULTS OF KONYA.....	266
P 5. CORN PRODUCTION AND EXPORT OPPORTUNITIES IN UKRAINE DURING TIMES OF WAR	267
P 6. REMOVAL OF As(V) FROM WATER BY USING PRE-COATED RED MUD MEMBRANES	268
P 7. ZERO WASTE INFORMATION SYSTEM (KOSABS).....	269
